### **ABOUT THE CAMP**

The Price Tower Arts Center is a historic landmark located in Bartlesville, OK. The “tree that escaped the crowded forest” is the only realized skyscraper by architect Frank Lloyd Wright, who waited 25 years to secure a client who would build his dream. An iconic treasure, the building draws people from across the world to discover the building and all the finite details that Mr. Wright considered in its design. To celebrate the upcoming changes in our community parks with the recent approval of a Skateboard Park and Community Green Space, the theme of the 2019 Youth Summer Architecture Camp is community and parks planning, with an emphasis on community spaces and skateboard parks. This STEAM (Science, Technology, Engineering, Art and Math) inspired activity will engage students in a unique, fun, and educational experience this summer while learning about the concepts of architecture and design. Daily activities will build on the foundations learned the day before and will include a combination of lecture, hands-on projects, walking tours, group projects and a final creative project at the end of the week. Students will be learning about these concepts and become familiar as Bartlesville begins the construction of the Community Green Space and Skateboard Park. They will see a real-world application of the concepts learned during this year’s day camp.

Thanks to our community friends and supporters, the Price Tower is able to offer this camp for \$75 per student. We have secured funding for scholarships, if needed, so that cost is not a barrier to participation. Please call us if a scholarship is needed. Tuition covers: materials, books, and a Certificate of Completion on Day 5. Parents are invited to see the children’s work in a short “Graduation” on July 19 at 11:30am and 3:30pm.

*(The material will be the same for both sessions and adjusted to the proper age level.)*
